It is a pleasure to announce a guest lecture with the title

Introduction to GCD graphs

SPEAKER: James Maynard

TIME: Tuesday, 15.09.2020, 05:30 pm.

Abstract: I'll introduce a family of graphs which are the key tool in the proof of the Duffin-Schaeffer conjecture. We'll see that if we can understand these graphs well enough, then we can solve the original Duffin-Schaeffer conjecture through an iterative argument.
