SFB-Seminar

8.5.2014, 17:00–18:30

9.5.2014, 15:00–16:00

Seminarraum C208, Steyrergasse 30/II

8. Mai 2014:

17:00–17:30 **Wöden Kusner** (University of Pittsburgh): *Packing density bounds via slicing*

17:30–18:00 **Romanos Malikiosis** (Nanyang Technological University, Singapore): *Full spark Gabor frames in finite dimensions*

18:00–18:30 **Hao Chen** (Freie Universität Berlin): *“Uniformly distributed” points on hyperboloids*

9. Mai 2014:

15:00–15:30 **Jolanda Modic** (University of Ljubljana): *On Euclidean distance matrices*

15:30–16:00 **Ngoc Ai Van Nguyen** (University of Ottawa): *Some problems in Diophantine approximation cancelled!*

Peter Grabner, Robert Tichy
